Cyber Awareness 4-1

1. With a partner think of a website that you both use that uses 2-factor authentication. What type of 2-factor authentication does that site use? Do you use the 2-factor authentication on that site?

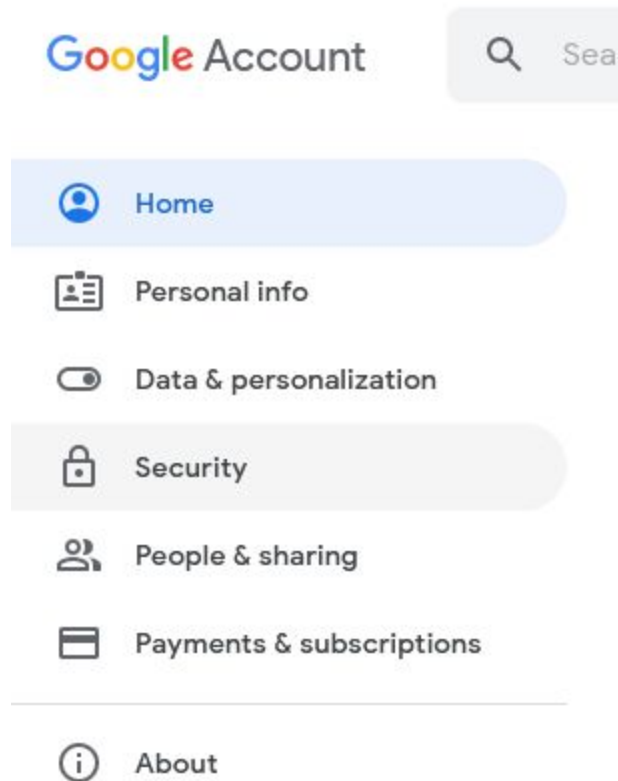

2. Find what is the most secure type of 2-factor authentication. What is that type? Is it widely used? Why or why not?

3. Turn on 2-factor authentication for your google account. Follow the steps below.

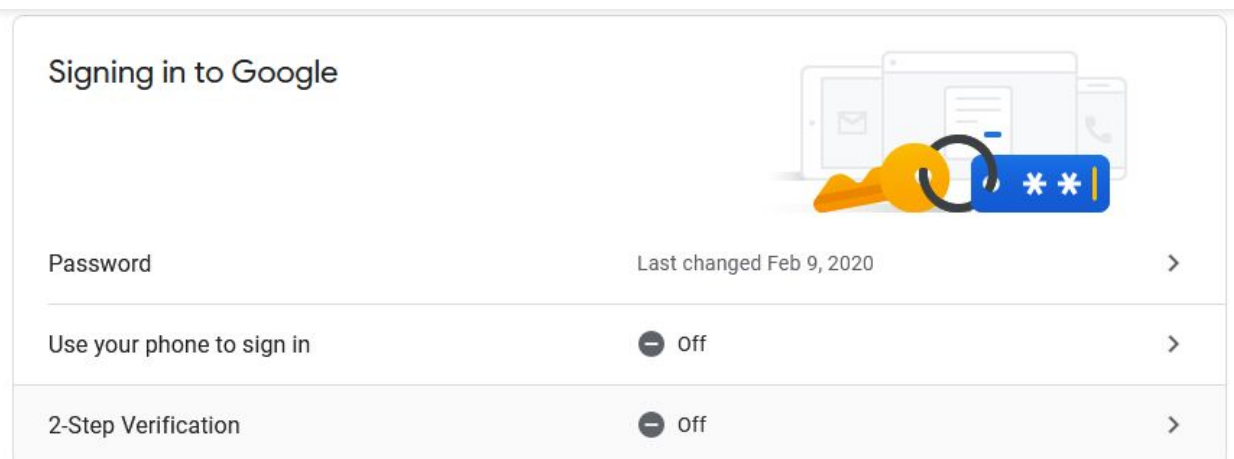

a. Open your google account by going to the following address:

www.myaccount.google.com

b. Navigate to the Security Tab

c. Under Signing in to Google click on 2-Step Verification

- d. Click Get Started and sign into your account
- e. Enter your phone number and select if you want to receive voice calls or text messages

Let's set up your phone

What phone number do you want to use?

 (555) 555-5555

Google will only use this number for account security.
Don't use a Google Voice number.
Message and data rates may apply.

How do you want to get codes?

☒ Text message ☐ Phone call

- f. Enter the code that was texted to you
- g. Select Turn On

It worked! Turn on 2-Step Verification?

Now that you've seen how it works, do you want to turn on 2-Step Verification for your Google Account [redacted]@gmail.com?

Step 3 of 3 [TURN ON](#)
